DEPLOYABLE EQUIPMENT

OVERVIEW

X

BeaverFit is an international institution of world class training equipment. We design, manufacture and distribute functional training equipment along with professional education specific for strength and endurance development in all athletes.

Our range of deployable equipment was designed through an operational need. The equipment is used extensively by military forces worldwide, creating outdoor training options and fully deployable solutions offering training in locations never before possible.

BeaverFit are the original inventors and designers of the Forward Operating Base (FOB) lockers, being proud owners of global Intellectual Property rights. Our Deployable system has been given clearance from the Joint Air Delivery Test and Evaluation Unit (JADTEU), making our FOB Lockers the world's first truly Deployable 'Air Portable' container gym.

Our mission is to solve problems, innovate through listening and provide equipment that serves a training goal in the most effective way possible.

TRAIN SAFE. WIN THE FIGHT. DAM STRONG.

X

SALIENT CHARACTERISTICS

X

Air Portable
Certified by the Joint Air Delivery Test and Evaluation Unit (JADTEU) for air transport on C-130J, A400M, C-17 & as a Helicopter Underslung Load.

Made Domestically
BeaverFit is made in the United Kingdom and the United States, in compliance to ISO 9001 standards

Waterproofing
BeaverFit deployable equipment has undergone a fully integrated waterproofing system

Multifunctional
All equipment is highly configurable

Scalable
BeaverFit equipment is designed to facilitate scalable activity, so that athletes and users of all types can benefit

Patented
BeaverFit products are protected in design and manufacture by global patents, design rights, trade mark and copyright

TACTICAL GYM BOX - SINGLE RACK | TGB-SR

X

The Tactical Gym Box Single Rack (TGB-SR) converts into a portable pull-up rack and Olympic Lifting Stand - it has room to carry kettlebells, bodyweight straps, rings, and a variety of other fitness accessories.

The TGB-SR fits easily in the back of a 4x4 and can be carried by two people. It is assembled with ease in less than 5 minutes. Multiple boxes can be connected in back-to-back or side-by-side configurations to accommodate larger groups.

This product comes with either an empty or fully loaded accessory package.

FOB LOCKER IS A PATENTED PRODUCT

FORWARD OPERATING BASE | FOLDING LOCKER

X

The Folding 5' Locker is an innovative solution designed to facilitate rapid deployment. The locker is housed by a bespoke trailer which can be towed by a truck or van. Upon arrival, the trailer can be unhooked and the functional training rig folded out so that there is not a need for tools.

The Folding Locker enables multi-modality fitness training in a self-contained rapidly transportable unit for up to 30 athletes.

This product comes with either an Empty or Fully Loaded accessory package.

FOB LOCKER IS A PATENTED PRODUCT

FORWARD MOUNTING BASE | FMB

X

The Forward Mounting Base (FMB) is a containerised facility that can be deployed to any operational environment. It was designed as a result of a complex needs analysis for the purpose of creating an integrated facility, incorporating indoor and outdoor fitness, accommodation, armouries, CBRN and more.

The FMB can be customised according to requirements, factors we consider are:

- Geographical Location and climate
- Type of Deployment: Tactical, Semi Permanent and permanent.
- Transportation and Logistics
- Number and Types of occupants
- Term and duration of occupancy
- Relocation Capacity Required
- Compliance to relevant codes
- Special Operational Requirements

GYM COMPLEXES

Create a multi-modality training centre through the Forward Mountain Base

OPS HEADQUARTERS

Including kitchens and camp security

MEDICAL FACILITIES

Featuring electrical kits and waste management

CBRN

Water filtration, storage & distribution

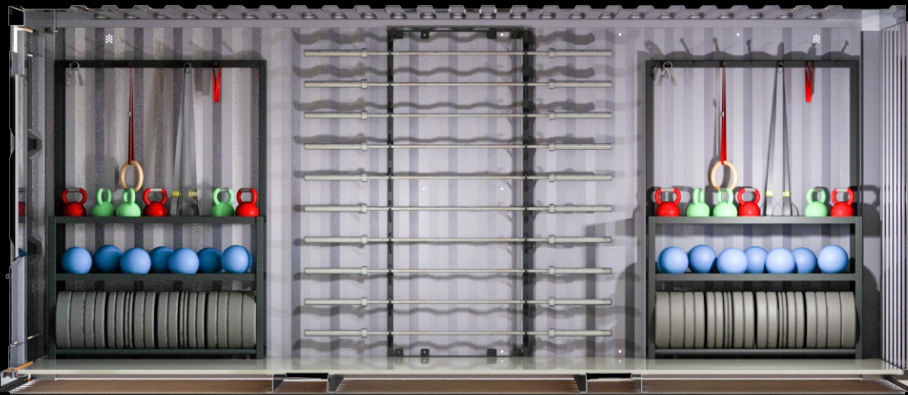

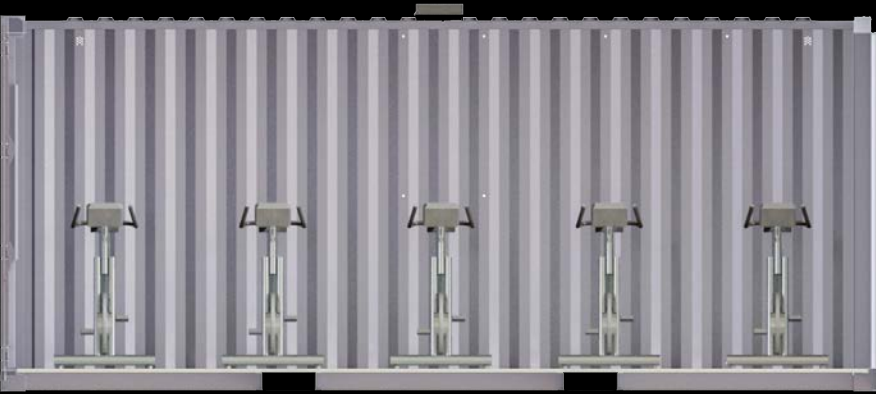

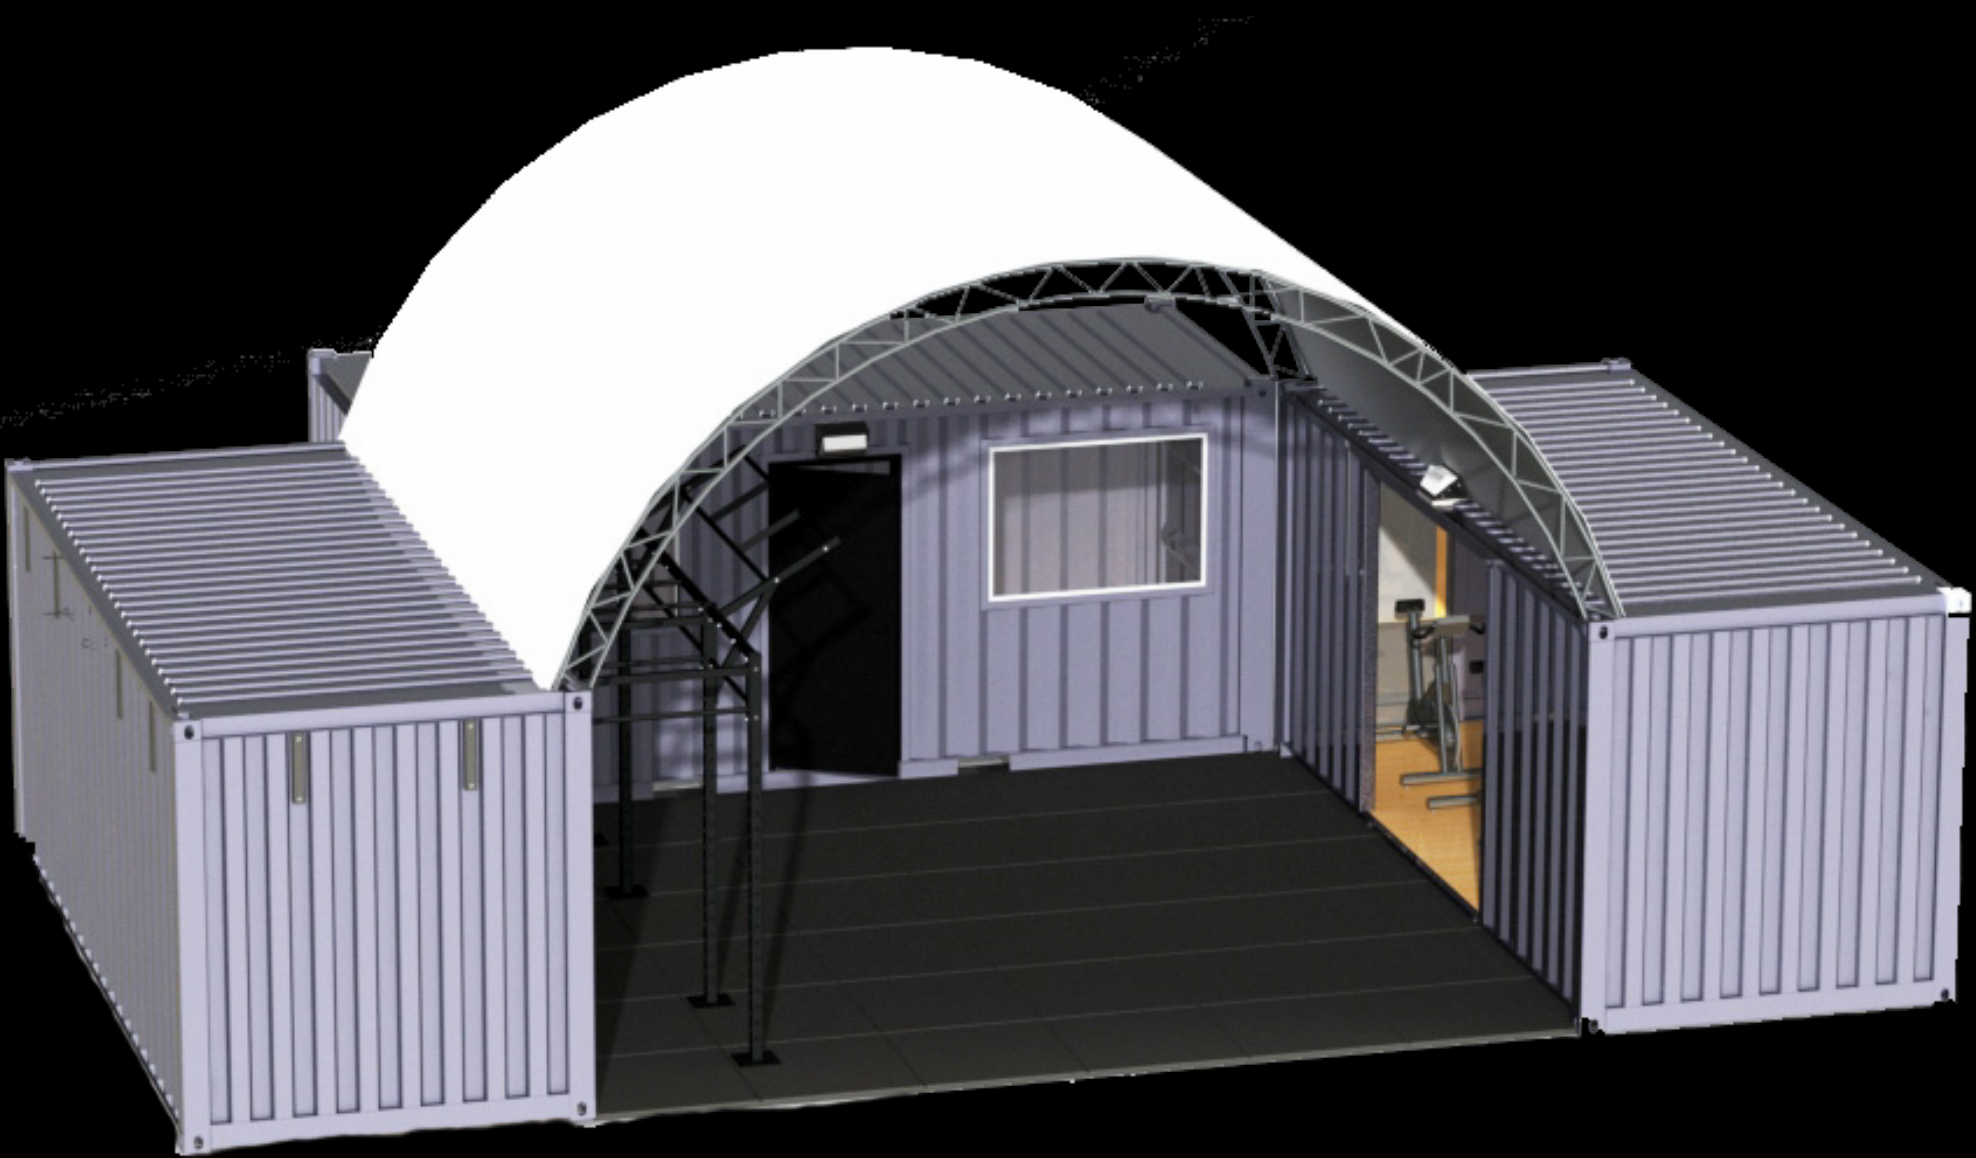

ACCOMMODATION

Sleeping quarters with laundry (batch & self-serve)

ARMOURIES

With fire protection

MEDICAL FACILITIES

Featuring electrical kits and waste management

CBRN

Water filtration, storage & distribution

ACCOMMODATION

Sleeping quarters with laundry (batch & self-serve)

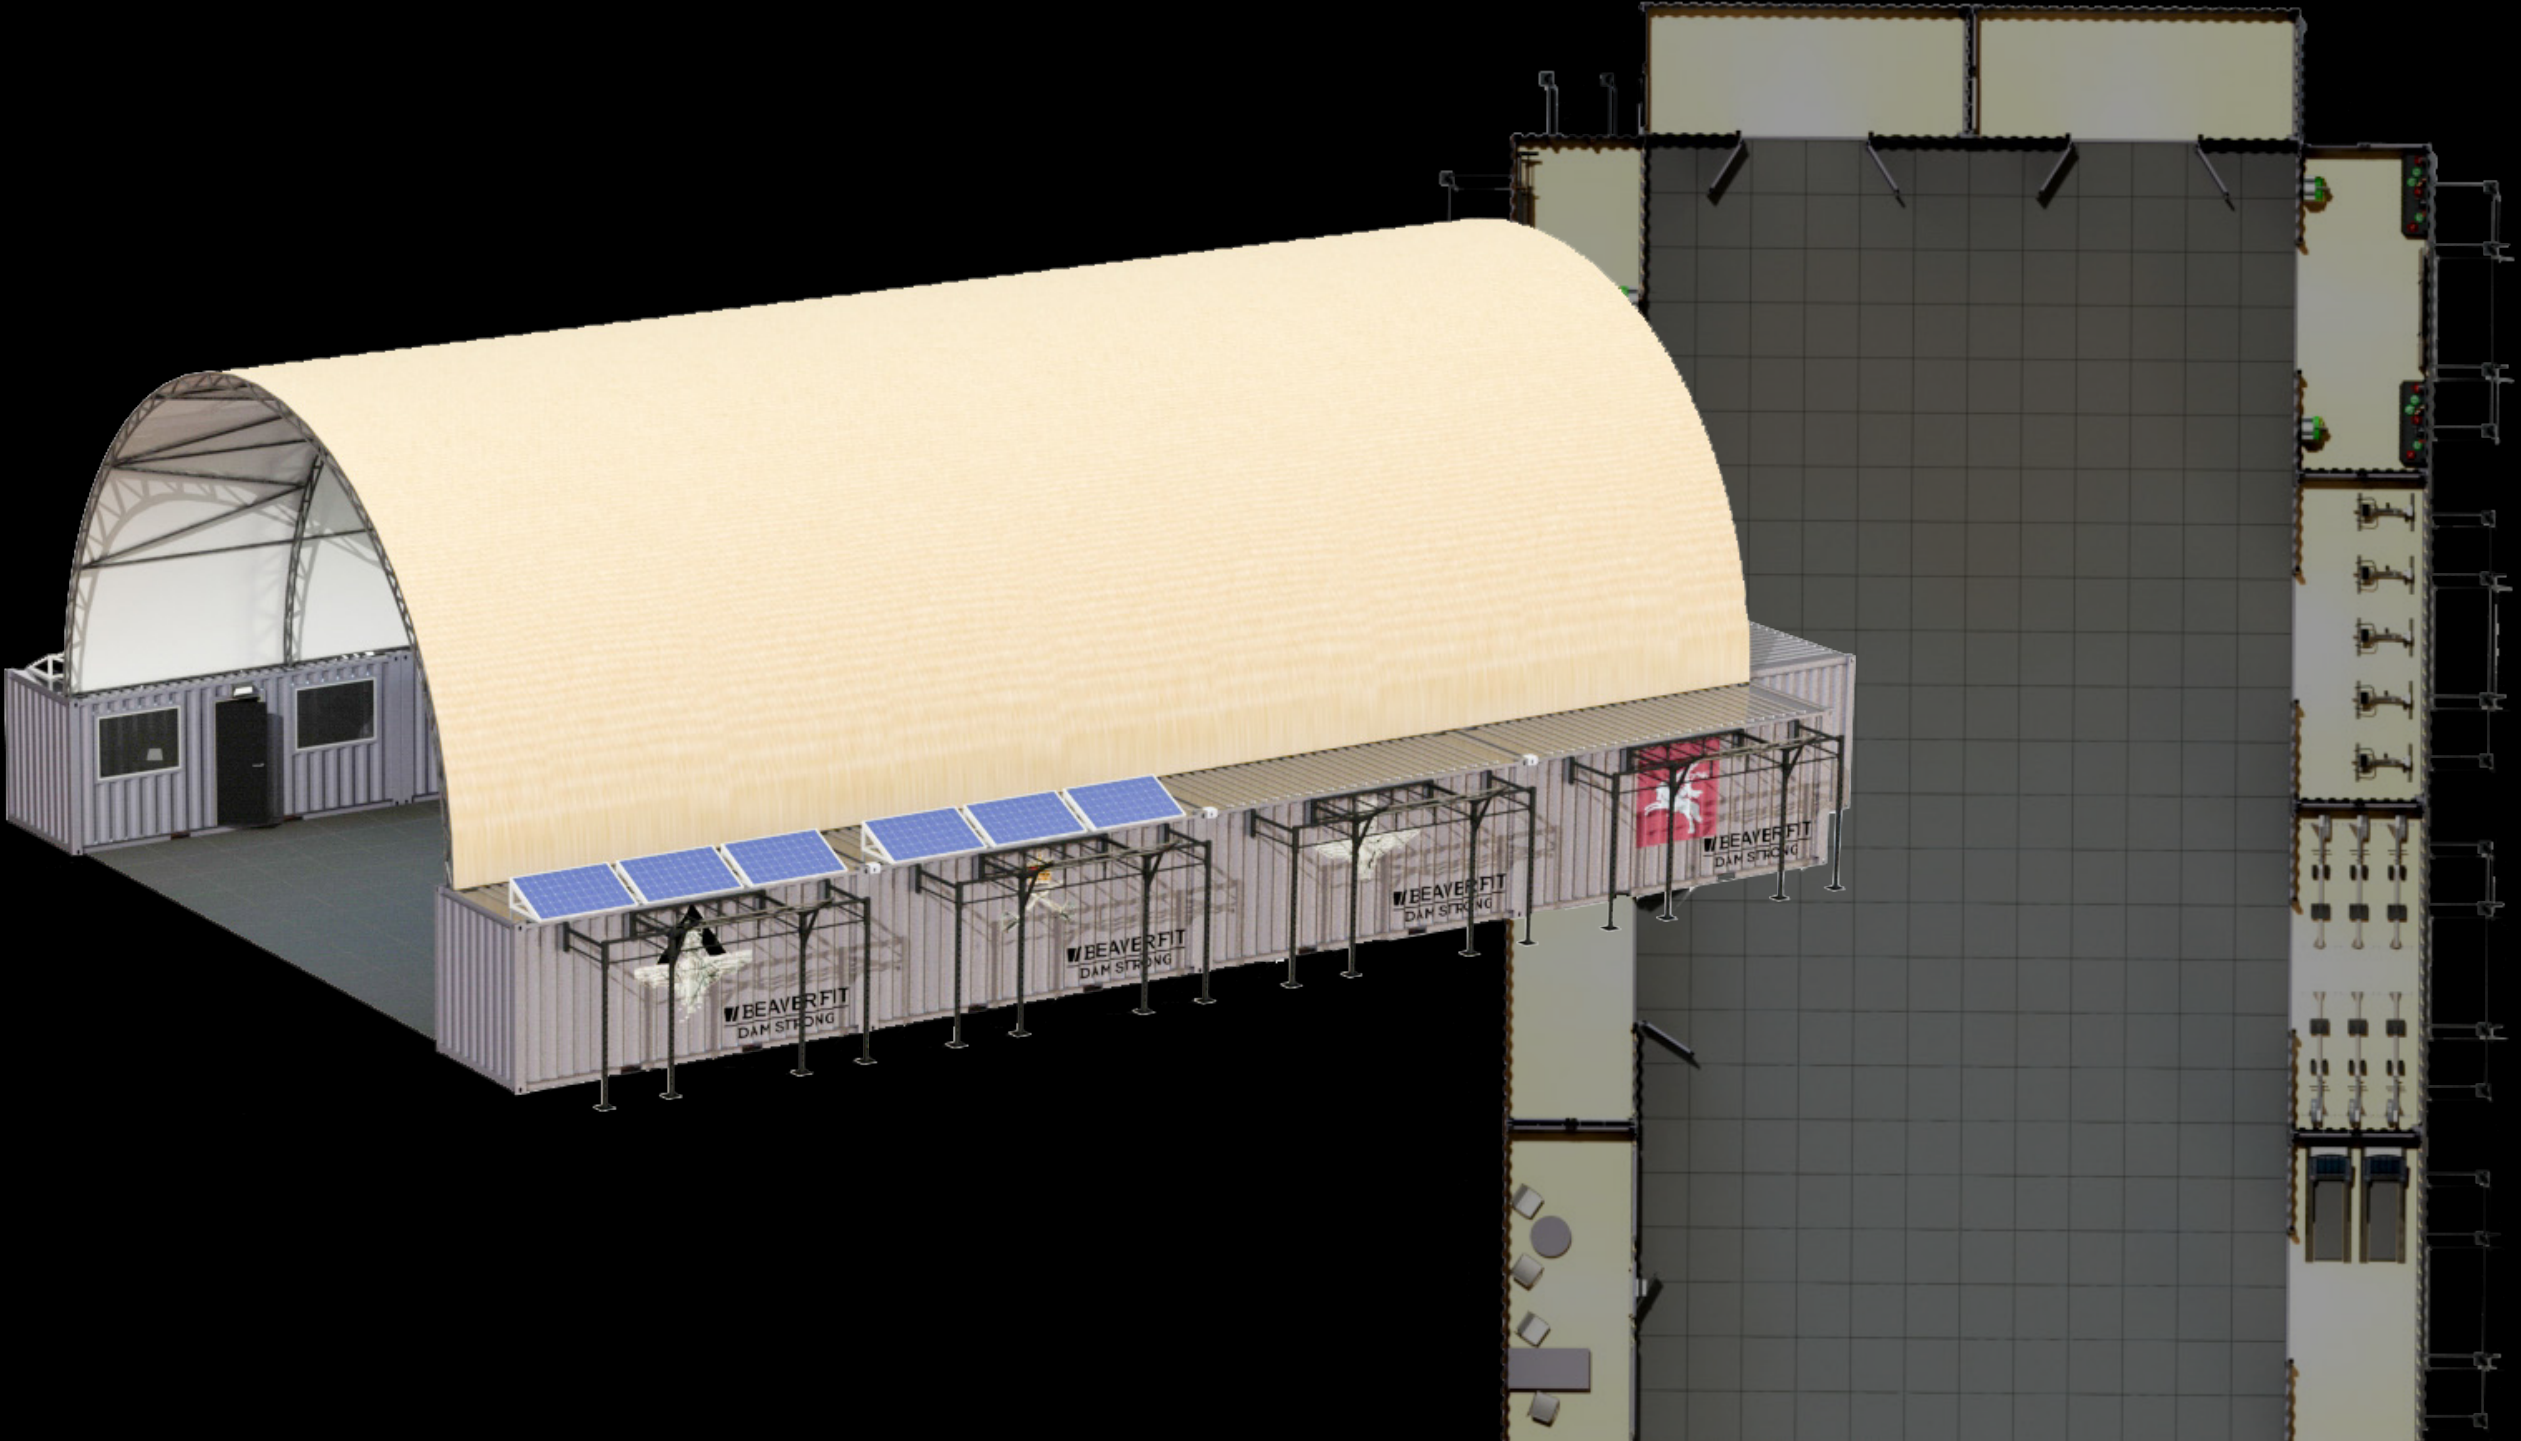

ARMOURIES

With fire protection

- Can be deployed in rugged field conditions and set up quickly on uneven terrain
- Protect sensitive electronic equipment from the elements—equipment is stored and transported in the centre core of the expandable container and doesn't need to be removed from the unit during set up or tear down
- Offer various electrical and mechanical interfaces, and can be connected to other soft-wall shelters to create a tactical command centre
- Can be outfitted with custom electrical packages, including outlets and data ports for radios, computers, and other equipment
- Allow for over-pressurization of the unit to protect against dust and other contaminants, such as CBRN agents
- Protect personnel and equipment from all weather conditions, including extreme heat, high humidity, snow, hail, etc.
